Ringling College of Art and Design: Bachelor of Fine Arts

## Summary

Over 10 years experience with a broad range of expertise from conception to completion in exhibit fabrication and installation, metalworking, woodworking, carpentry, home remodeling, 3D art and design, 3D animation, and motion graphics.

## Experience

### **Welder | Fred Martin Welding 2021-2023**

- Executed welding tasks including MIG, TIG, SMAW, CNC Plasma, and Oxy-Acetylene, for residential and commercial fabrication and repair.
- Read and interpreted blueprints per project specifications and executed precise measuring, cutting, punching, bending, fit-up, weld procedure, and finish.
- Managed end-to-end project processes: client intake, design, material ordering, fabrication, and installation.

### **Lead Exhibit Fabricator | Creative Arts Unlimited 2015-2021**

- Led a team of fabricators and builders in the construction of multi-million dollar interactive exhibits for museums, science centers, and other public spaces using various building techniques.
- Collaborated with designers and engineers for accurate execution of plans and specifications.
- Oversaw all aspects of the fabrication process, including material sourcing, construction, installation, project timelines, budgets, and quality control.

### **3D Artist and Animator | Creative Arts Unlimited, Ringling College of Art and Design, American Zoetrope | 2015-2022**

- Created 3D models, textures, and animations for various projects, including product design, museum exhibits, and video games.
- Collaborated with clients and the creative team to develop engaging visual concepts, architectural visualizations, and animations.
- Proficient in 3D modeling, texturing, and rendering software (e.g., Autodesk Maya, ZBrush, Keyshot, Arnold); skilled in creating detailed and realistic 3D assets; strong understanding of composition, color theory, and lighting.

### **Home Remodeling and Handyman | Independent Contractor | 2006-2024**

- Undertook a variety of home remodeling and handyman projects for residential clients.
- Provided expertise in general and finish carpentry, welding and metalworking, plumbing, electrical work, flooring installation, drywall, painting, and general maintenance.
